

BADLANDS OFF ROAD PARK UPDATE – WE ARE STILL OPEN (A LETTER FROM THE BADLANDS STAFF)

The Badlands has always been a place to escape from the day-to-day grind and create unforgettable moments and life-long memories. You can be assured that here at the Badlands we understand the seriousness of our current circumstances AND we are committed to creating the same environment you've always enjoyed – wide-open spaces where you can enjoy the outdoors while pursuing your passion for off-roading!

With that said, saying these are challenging times is an understatement. Knowledge of COVID-19 and requirements / recommendations on how reduce the spread of the virus and protect yourself are changing daily. Everyone is going to be looking for activities that meet the suggested measures and criteria and the Badlands Off Road Park is committed doing everything we can to remain open, supporting our customers, and supporting other small businesses in our community.

As recommended by our government, social distancing is extremely important. The Badlands offers wide-open spaces while riding which meet these recommendations. We are restructuring our processes to help maintain the suggested social distancing measures where applicable. Some of these will include doing outdoor checkin on weekends and limiting the number of people in our building at one time. (Please be mindful of the CDC's recommendation to maintain 6' between people.) We are also implementing stringent and regular cleaning processes in all aspects of our business.

To help us facilitate outdoor checkin for riding, please have your IDs available and if paying by cash, please have the exact change if possible. (See below for driver and passenger pricing.) If you are in need of flags, gear, and merchandise, the store will definitely be open.

Stay up-to-date regarding any developments regarding the status of the Badlands Off Road Park by following us on Facebook and regularly checking our Facebook page.

Let's all remember we have a social contract with one another that calls us to show compassion and patience with one another. And as off-roaders, we must navigate these challenging times the same way we navigate difficult trails and terrains . . . with determination and teamwork.

The Badlands Off Road Park Staff
